About the Data

- The statistics are based on the best available information at the time of the data query.
- The data is extracted from the computer aided dispatch (CAD) system and may not necessarily mean a crime was committed or a report generated.
- The call records the address of the request for service which may not reflect where the crime actually occurred.
- The Tacoma Police Department is not the primary responder for all calls made from within the City of Tacoma.
- Liquor Law Violation was a new code introduced in April 2010 after the creation of the Initial Downtown Alcohol Impact Area (AIA).
- Small numbers may cause large percent increases and decreases.
