Dear WSLCB,

My name is Kevin Stormans. Our Bayview Thriftway grocery store is located in the downtown Olympia AIA. I understand that you are having a public hearing on Wednesday March 25th to listen to arguments on expanding the list of banned products. We have supported the AIA from the beginning and in fact had not carried fortified products well before the AIA was even discussed. Please **SUPPORT** the banning of all know products that could fall under consideration in the AIA.

Every day we have to walk about the store to wake up people sleeping by the building, pick up cans and bottles, pick up trash and clean up urine and feces. While this may not be the sole result of high alcohol beverages it is certainly a significant contributing factor. These behaviors are unacceptable and cast a shadow on our beautiful downtown. Furthermore, my customers, my employees and my store should not have to suffer due to these behaviors fueled by high alcohol content beverages.

Again, I ask you to please support the banning of all know products that could fall under consideration in the AIA.

Kevin Stormans
