

WASHINGTON POISON CENTER
MARIJUANA WARNING ICON/LABEL
6.10.16

Marijuana is not for kids.

Like alcohol and tobacco, kids need to know that marijuana products can be very harmful to them. Place these stickers on products that aren't for kids and explain to them what the sticker means and why it's important.

Find more information and talking tips on the other side of this card to help get the conversation started.

Talking Tips:

- Show your child the sticker, and explain that products that look like normal foods are not always safe to eat. For example:
“When you see this label, it means what’s inside can be harmful to you.”
- Use age-appropriate language to educate and explain to your child why this product is harmful for kids. For example:
“When children eat this, it can make them very sick because it contains marijuana—which is a drug.”

If a child has ingested or been exposed to a product containing cannabis, alcohol, or tobacco, call the **Washington Poison Center** right away at **1-800-222-1222** for free, confidential medical advice. Nurses and pharmacists are available 24 hours a day, 7 days a week.
