064981 FINAMORE LIMONCELLO LIQ

We received reports that cases of 064981 – FINAMORE LIMONCELLO LIQ 750 ml may appear to have floaties in the contents.

The suppliers' response:

“The sediment or floaties in the bottle is from the lemons and wine. It’s all natural and nothing is wrong with the product.”

Please return product to the shelf and sell as usual.

Thank you.
