Marijuana Know the Facts

Marijuana is not harmless.

Marijuana impairs coordination and perception, affects learning and memory, and can increase anxiety, panic and paranoia. Research shows one in eight youth who use marijuana by age 14 become dependent.

Some of the risks of smoking marijuana vs. consuming marijuana-infused foods are different.

Inhaling any kind of smoke harms your lungs. Consuming marijuana-infused foods can also be dangerous because it takes longer to feel the effects. It's easier to have too much because the effects are delayed.

Recreational marijuana use has age restrictions.

Only those 21 and older can possess marijuana, with a limit of 1 ounce of useable marijuana, 16 ounces in solid form, and 72 ounces in liquid form.

Where you can use marijuana is limited.

Marijuana cannot be used in view of the public. It is also not allowed on federal and most tribal lands.

The penalties for marijuana use for those under 21 can be severe.

If you are under 21, you can be charged with Minor in Possession. If you have more than 40 grams, it is a Class "C" felony (\$10,000 fine and/or 10 years in jail).

It's not okay for parents to share marijuana with their kids.

It is a felony to provide marijuana to any minor.

Marijuana What Parents Should Know

Most youth choose not to use marijuana. However, some will try it, and some will continue to use it.

Brain development continues through age 25. The use of any drug, including marijuana, can impair brain development.

Marijuana use increases risk of academic problems. Marijuana's effect on learning, memory, and motivation can lead to difficulties in school.

Talk Early. Talk Often.

- You are the number one influence in your child's life.
- Talk early and talk often about making the right choices.
- Set expectations.
- Discuss rules and enforce consequences.
