2:10 p.m.– 2:55 p.m.	Review and discuss draft proposed rule changes to WAC 314-55-097
2:55 p.m. –3:00 p.m.	Questions and next steps filing

Draft proposed changes to WAC 314-55-097

1. Amended language to define “cannabis waste” for the purposes of WAC 314-55-097 to mean “cannabis waste” means solid waste generated during cannabis production or processing. “Cannabis waste” does not include “hemp” or “industrial hemp,” as defined in RCW 15.140.020.
2. Amended language to allow sales of cannabis waste by a licensed producer or processor under certain conditions, including report sales information to WSDA and LCB prior to completion of the sale.
3. Maintains current requirements for grinding and disposal of cannabis waste that is not sold.
4. Requires recordkeeping for audit purposes. Violations are subject to penalty.
