## Telephone Survey FAQ

During a telephone interview, if a respondent asked a question, interviewers were trained to only respond with information provided to them from the following Interviewer FAQ.

## SESRC 800 line: 800-833-0867

## Frequently Asked Questions

## Q. WHO IS SPONSORING THE SURVEY?

A. We are conducting the survey on behalf of the State of Washington, Washington State Liquor Control Board, and the City of Seattle.

## Q. WHAT IS THE PURPOSE OF THIS STUDY?

A. The study's purpose is to evaluate the effectiveness of the Alcohol Impact Area (AIA) rules, specifically, to determine whether product restrictions by prohibiting the sale of certain high alcohol content beer and wine products, in conjunction with local community efforts to address chronic public inebriation (CPI), have helped to mitigate the negative effects of CPI in the Seattle Alcohol Impact Areas.
Q. WHO IS THE PERSON RESPONSIBLE FOR THE STUDY?
A. John Tarnai is responsible for the survey at Washington State University and Yi-Jen Wang is the Study Director for this study. You can reach either of them at 800-833-0867.

## Q. HOW MANY PEOPLE WILL BE PARTICIPATING?

A. We will be contacting about 1,400 households in the Seattle area.
Q. WHO ARE YOU? WHO IS CONDUCTING THIS INTERVIEW?
A. I am a (student/resident of Pullman, Washington) working part-time for the Social and Economic Sciences Research Center at Washington State University. The Washington State Liquor Control Board has contracted with us to conduct the actual interview to collect necessary information for the study.
Q. HOW DID YOU GET MY NAME?
A. Your number was called at random from a list of telephone numbers in your area. SESRC received the list of telephone numbers from Marketing Systems, Inc. a telephone sampling company.

## Q. HOW CAN I BE SURE THIS IS AUTHENTIC?

A. I would be glad to give you our telephone number here at SESRC, and you can call my supervisor. You can contact my supervisor at 800-833-0867. You may also visit our website at www.sesrc.wsu.edu

IF R ASKS FOR A NAME OF SUPERVISOR
My supervisor's name is .... (Jessie Paulson, Tony Hernandez, or James Segota)

## Q. IS THIS CONFIDENTIAL?

A. Yes, most definitely. Your telephone number will be removed from the data set after the survey is completed.

Also, maintaining confidentiality is extremely important to the success of our research center, because we conduct many surveys. Therefore, we are very careful to protect your privacy.

## Q. HOW WILL THE RESULTS BE USED? WHAT WILL YOU DO WITH MY ANSWERS?

A. The Washington State Liquor Control Board will evaluate the effectiveness of the Alcohol Impact Area rules, specifically, to determine whether product restrictions by prohibiting the sale of certain high alcohol content beer and wine products, in conjunction with local community efforts to address chronic public inebriation, have helped to mitigate the negative effects of chronic public inebriation in the Alcohol Impact Area.

I want to assure you that all information that may identify you or your family will be protected during the data collection process, and then destroyed. Your answers will be combined so that no one individual's answers can be identified in the final reports.

## Q. WHAT ABOUT MY RIGHTS AS A PARTICIPANT?

A. This study has been reviewed and approved by Washington State University's Institutional Review Board for human subject participation. If you have any questions concerning your rights as a participant, please contact the WSU Institutional Review Board at 509-335-9661 or irb@wsu.edu, and mention IRB \#10656-001.

The Washington State Liquor Control Board (WSLCB) is conducting a study on the problems of chronic public inebriation in Seattle. A few years ago, the WSLCB created an alcohol impact area (AIA) in Seattle, which placed certain restrictions on the sale of some alcohol products. The WSLCB has asked Washington State University to conduct an evaluation of the AIA restrictions.

We are surveying all businesses that sell alcohol products in your neighborhood. Your participation in this survey is voluntary and confidential. I ask that you please complete and return the enclosed questionnaire by June 8, 2009. Your assistance in completing this questionnaire will be very helpful in deciding whether or not the AIA restrictions should be continued.

The questionnaires will be returned to and processed by Washington State University. All of the information you provide will be kept strictly confidential. No data will be disclosed that identifies an individual business. A code number is printed on the back page; this is used to check your business off the mailing list when the questionnaire is returned.

I would be happy to answer any questions that you might have about this survey or your participation. Feel free to call me at Washington State University at (800) 833-0867 or send a fax message to me at (509) 335-4688. You can also email me at sesrc@wsu.edu

Thank you for your assistance!
Sincerely,
