What is an Alcohol Impact Area?

An alcohol impact area is an area of a city or town that is experiencing significant problems with chronic public inebriation or illegal activity associated with alcohol sales or consumption. Under Liquor and Cannabis Board regulations (WAC 314-12-210 through WAC 314-12-225), a city or a town may request formal recognition of an Alcohol Impact Area by the Liquor and Cannabis Board. Recognition can only occur after the city has met the requirements outlined in the Alcohol Impact Area rules.

How Does the Alcohol Impact Area Affect My Liquor License?

1. Extended license notification times: The Liquor and Cannabis Board's formal recognition of the Alcohol Impact Area means the agency will give the City of Spokane more time to comment on new license applications and renewals for businesses that sell beer or wine to-go within the Alcohol Impact Area. The City of Spokane now has 60 days to comment on applications or assumptions that include sales to-go within the Alcohol Impact Area (previously 20 days), and 90 days to comment on renewals within the Alcohol Impact Area (previously 60 days).
2. Beer and wine product restrictions: Along with formal recognition of the Spokane Alcohol Impact Area, the Liquor and Cannabis Board approved mandatory beer and wine product restrictions based on a list of products identified by the City of Spokane as linked to

problems associated with chronic public inebriation. **You may not stock or sell beer and wine products on the Banned Products List for off-premises sale ("to go").** In the future, should the City of Spokane identify additional beer or wine products as reasonably linked to problems associated with chronic public inebriation, they may request that the Liquor and Cannabis Board also restrict these additional products. We will notify you if the Board approves further product restrictions.

If you are a restaurant or tavern, you may still sell these products for consumption on your licensed premises, but not to-go.
