## By (date and time) September 11, 2024, 12:00 PM

**Purpose of the proposal and its anticipated effects, including any changes in existing rules:** The proposed rules are intended to expand and improve the Social Equity in Cannabis Program as directed by Engrossed Second Substitute Senate Bill 9E2SSB) 5080, chapter 220, Laws of 2023. This includes revising definitions, adjusting eligibility criteria, refining the application and scoring processes to ensure a more equitable distribution of cannabis licenses to individuals from communities impacted by previous Drug War policies. The proposed rules modify WAC 314-55-570, as follows:

- 1. <u>Definitions</u>: Definitions are amended to enhance clarity, inclusivity, and conform with statute: "disproportionately impacted area," "social equity plan," "family member," "median household income," "preliminary letter of approval," "social equity contractor" and "social equity program applicant. A new definition for social equity registrant was created and the definition for social equity applicant modified to distinguish two phases of the application process. A social equity registrant is an individual who has registered to be evaluated for qualification under the social equity program, has been evaluated and scored by the social equity contractor based on the scoring rubric, and received a preliminary letter of approval by the board.
- <u>Initial application process</u>: The initial application process has been amended to provide for registration through an online portal to reduce barriers to entry associated with the eligibility screening for the social equity program, such as financial costs and compliance burden associated with applying for a business license through other state agencies before the social equity contractor scoring evaluation.
- Scoring Rubric: The scoring rubric is adjusted to focus on the four areas of qualification for the social equity program identified in E2SSB 5080. The scoring rubric criteria are modified to more equitably consider the obstacles encountered by candidates from marginalized communities, in response to feedback from the community advocating for a nuanced evaluation of qualifications and circumstances.
- License Mobility: Changes to the license mobility requirements involve allowing HB 2870 applicants who have not secured a location within 90 days after the closure of the 5080 application window to locate their license to a different county from its original allocation.
- 5. <u>Right to Appeal</u>: Appeal rights are clearly established for applicants withdrawn or denied a license.
- 6. <u>Title Certificate Holders</u>: The rule allows title certificate holders to reinstate their licenses under the social equity program with eligibility determination and relocation options, providing avenues for title certificate holders to re-enter the market under social equity considerations reflecting public feedback on inclusivity and equitable access to licensing opportunities.
- 7. <u>Local Objection</u>: Local jurisdictions can object to the location of proposed cannabis retail licenses based on preexisting ordinances limiting retail outlet density. The Board will give substantial weight to these objections.
- 8. <u>County Thresholds</u>: E2SSB 5080 required the LCB to identify thresholds for the number of producer, processor, and retailer licenses in each county. The rule establishing the county thresholds will be evaluated every three years beginning in 2029 and will be published on the LCB's website. Established thresholds indicate the number of potentially viable licenses by county based on an analysis of market conditions and other relevant factors conducted by a third-party economist.
- 9. <u>Conflict of Interest</u>: Conflict of interest safeguards were added to reduce risk of any preferential treatment between the third-party vendor and applicants or licensees.

**Reasons supporting proposal:** The amendments seek to address historical disparities within the cannabis industry by providing greater opportunities for those impacted by the enforcement of cannabis prohibition. The rules aim to foster economic inclusivity and social restoration.
