Social Equity Program

- State law limits the LCB to only re-issue retail licenses to social equity applicants that have been forfeited, revoked, cancelled or not previously issued. Currently, there are 39 licenses available.
- The LCB does not have the authority to increase the number of retail licenses for the Social Equity Program, this must be done by the legislature.
- The Social Equity Task Force was created to provide the LCB with recommendations on how to implement the program.
- LCB rulemaking is required to legally issue social equity licenses.

Criminal History Rule Changes – Effective October 2, 2021

The goal was to reduce any unintentional barriers to entry into the legal cannabis market. Some areas of focus were:

- Easing conviction allowances and time considered;
- Removing the point system and penalties for non-disclosure; and
- Including our internal review process and considerations so an applicant is not discouraged from applying.

Licensing Process Improvements

As staff heard from the community our goal was to take the feedback and evaluate all of our current application processes, including:

- Outreach to other States;
- Evaluating our application processes to allow more flexibility and identifying barriers;
- Identifying work that the Licensing Specialist can assume or assist with;
- Providing resources for an easier connection with our partner agencies;
- Creating letters for applicants to assist with local jurisdictions or property owners; and
- Planning outreach and education for potential applicants.
