CR 102 Memorandum

Regarding implementation of SSB 5448 concerning liquor licensee privileges for the delivery of alcohol.

Date: May 24, 2023
Presented by: Dr. Kathy Hoffman, Research Manager

Background

Prior Legislation and Rule Development

In 2021, the Legislature codified certain liquor license privileges, similar to the allowances the Washington State Liquor and Cannabis Board (LCB) had temporarily provided to liquor licensees during the COVID-19 pandemic through Engrossed Second Substitute House Bill (E2SHB) 1480 (chapter 48, Laws of 2021). These privileges were set to expire July 1, 2023. The CR 102 Memorandum from implementation of E2SHB 1480 describing these changes is attached hereto as Attachment A and incorporated herein by this reference.

Current Legislation and Rule Development

In 2023, the Legislature revised the liquor license privileges codified in E2SHB 1480 through Substitute Senate Bill (SSB) 5448 (chapter 279, Laws of 2023). SSB 5448 made the following revisions:

- The July 1, 2023, expiration of the temporary liquor license privileges for takeout was removed, and the privileges made permanent.
- The authorization to sell alcohol products curbside and the authorization for spirits, beer, and wine restaurant licensees to sell cocktail kits with mini-bottles for takeout and delivery was removed.
- The authorization for specified licensees to sell alcohol for delivery under the temporary privileges was extended only until July 1, 2025. No alcohol products may be sold by delivery under the privileges after July 1, 2025.
- While delivery sales are authorized, alcohol delivery must be performed only by an employee of an alcohol delivery endorsement holder who is 21 years of age or older and possesses a class 12 alcohol server permit. The employee must have completed an approved alcohol server permit course with a curriculum component on best practices for alcohol delivery. The signature requirement is extended so that upon delivery of any alcohol product the signature of the person age 21 or over receiving the delivery must be obtained.

- Delivery and takeout services conducted by restaurant licensees must be accompanied by a purchased meal prepared and sold by the license holder. Any alcohol product sold for takeout or delivery pursuant to the privileges must be in a factory sealed container or a tamper-resistant container.

Stakeholder Engagement

The Board wishes to expeditiously align existing rules with statutory language to provide business continuity and regulatory stability. However, Governor Inslee signed SSB 5448 on May 4, 2023. The bill has an effective date of July 1, 2023. Given the effective date of the legislation, the standard rulemaking process and its procedural requirements would have extended the rule development timeline beyond that effective date.

Under certain circumstances, a rule or rules may be exempt from certain procedural requirements. These exceptions are described in RCW 34.05.310(4). Exceptions include but are not limited to rules that adopt or incorporate by reference state statutes or rules of other state agencies. Exceptions also include rules where the content is explicitly and specifically dictated by statute.

These exceptions frame process that shortens the time it takes to develop a rule by eliminating the analytical requirements and the filing time associated with the standard rulemaking process. The exception process retains the public hearing component, which enables interested parties to object to the rule without delaying the process.

As provided in RCW 34.05.310(4)(c), this proposal adopts or incorporates by reference, without material change, a Washington state statute. Additionally, consistent with RCW 34.05.310(4)(e), this proposal offers rules where the content is explicitly and specifically dictated by statute. For that reason, this proposal is exempt from public from prenotice inquiry requirements, and the opportunity for stakeholder engagement will occur at the public hearing.

Diversity, Equity, Inclusion and Belonging

The agency relies on a continuous policy analysis process centered on the overarching domains of stakeholder engagement and education. These are surrounded by continuous evaluation and framed by the following additional domains:

- Problem identification;
- Policy analysis;
- Strategy and policy development;
- Policy enactment; and
- Policy implementation.

To evaluate a problem and analyze its policy implications, the agency relies on a policy framing tool designed to view the problem and associated analysis through seven different criteria. These are:

- Diversity, equity and inclusion;
- Licensing Division impacts/perspectives;
- Public Safety (WSLCB Education and Enforcement) impacts/perspectives;
- Public Health/Prevention impact/perspectives;
- Feasibility (the likelihood that the policy can be successfully adopted and implemented);
- Economic and budgetary impacts, including a comparison of the costs to enact, implement, and enforce the policy with the value of the benefit; and
- A legal assessment to assure that the rule is authorized by statute.

Each of these criteria are reviewed under different analysis focus areas. The analysis:

CRITERIA	Analysis Focus
Diversity, Equity, Inclusion, and Belonging	<ul style="list-style-type: none"> • Diversity: Does the policy consider race and ethnicity, gender and gender identity, sexual orientation, socioeconomic status, language, culture, national origin, religious commitments, age, (dis)ability status and political perspectives across the authorizing environment? • Equity: Does the policy support the agency’s commitment to work actively in challenging and responding to bias, harassment, and discrimination? Does the policy extend the agency’s commitment to equal opportunity for all persons and does not discriminate on the basis of race, color, national origin, age, marital status, sex, sexual orientation, gender identity, gender expression, disability, religion, height, weight, or veteran status? • Inclusion: Does the policy support the agency’s commitment to pursuing deliberate efforts to respectfully honor and acknowledge different perspectives, where every individual feels a sense of inclusion that leverages collective capabilities? • Belonging: Does the policy identify and remove barriers that limit or prevent equity and justice for all, particularly for those who have been historically excluded and oppressed? Does the policy move toward replacing old systems with new systems that are just, equitable, diverse and inclusive for the benefit of all?

Responses to each of these analysis elements as they relate to this rule proposal are offered below:

Analysis Focus	Agency Response
<p>Diversity: Does the policy embodied in proposed rule consider race and ethnicity, gender and gender identity, sexual orientation, socioeconomic status, language, culture, national origin, religious commitments, age, (dis)ability status and political perspectives across the authorizing environment?</p>	<p>The agency recognizes that race, gender, sexual orientation, socioeconomic status, language, culture, national origin, religious commitments, age, ability and political perspectives are deeply connected. This understanding informs the agency’s commitment to shifting repressive power dynamics and strengthening the influence of those most affected by the impact of such dynamics. That shift was represented in ways that the agency worked to find temporary ways for businesses to expand their operations, to mitigate the economic impacts of the COVID-19 pandemic, while not placing the health of employees or customers at risk. Temporary allowances that eventually became legislation were framed in a way that reduced barriers to participation in the regulated market, while honoring the four pillars of public administration (economy, efficiency, effectiveness, and social equity),¹</p>
<p>Equity: Does the policy embodied in proposed rule support the agency’s commitment to work actively in challenging and responding to bias, harassment, and discrimination? Does the policy extend the agency’s commitment to equal opportunity for all persons and does not discriminate on the basis of race, color, national origin, age, marital status, sex, sexual orientation, gender identity, gender expression, disability, religion, height, weight, or veteran status?</p>	<p>Equal access to inequitable systems does not advance social equity. Disparities in structures and systems ensures barriers to access. By reverse engineering regulatory frameworks to align with statute, the agency has been able to proactively dismantle them, allowing the agency to enable conditions that can lead to social equity. These efforts are embedded in the agency’s approach to rule and policy development. The policy represented in this rule proposal demonstrates the agency’s continued commitment to regulation that supports socially equitable conditions, realizing and operationalizing the intent of the legislation, and supporting business stability through regulatory continuity.</p>
<p>Inclusion: Does the policy embodied in the proposed rule support the agency’s commitment to pursuing deliberate efforts to respectfully honor and acknowledge different perspectives, where every individual feels a sense of inclusion that leverages collective capabilities?</p>	<p>The policies embodied in the original allowances developed by the agency in collaboration with licensees and other partners during the COVID-19 pandemic were codified in E2HSB 1480 and now in SSB 5448. These policies were developed through an inclusive, collaborative, deliberative process. Collective community knowledge and capabilities were leveraged during that process to assure that all voices were heard, acknowledged, and included in policy.</p>
<p>Belonging: Does the policy embodied in proposed rule identify and remove barriers that limit or prevent equity and justice for all, particularly for those who have been historically excluded and oppressed? Does the policy move toward replacing old systems with new systems that are just, equitable, diverse and inclusive for the benefit of all?</p>	<p>Belonging is difficult to quantitatively measure. Cultivating a sense of belonging hinges on building trust and effective working relationships that support positive business outcomes. The cultivation process includes creating space for information sharing between regulators and those who are regulated or thinking about becoming part of the regulated community. The rule proposal supports a culture of belonging because it reflects the contributions and thinking of licensees, their representatives, and the communities in which those licensees conduct business, providing policy continuity and regulatory stability.</p>

Estimated Costs of Compliance

There are no estimated costs of compliance. The proposed rules are exempt from the Regulatory Fairness Act's (RFA) Small Business Economic Impact Statement (SBEIS) under RCW 34.05.310(4)(c) and (e).

Description of Rule Changes & Rule Necessity

The proposed revisions incorporate legislation that will become effective on July 1, 2023, and do not materially or substantively change existing rules. The proposed rule revisions are needed to align existing rules with and implement the law as established by SSB 5448 as described in the table below:

(2)) **Outdoor alcohol services in privately owned spaces.** For ongoing outdoor alcohol service located in privately owned spaces, a licensee must request approval from the board's licensing division and meet the following requirements:

(a) The licensee must have legal authority to use the outdoor alcohol service area including, but not limited to, ownership or leasehold rights;

(b) The licensee must have a building that provides indoor dining or production in order to qualify for an outdoor alcohol service area;

(c) The outdoor alcohol service area must be (i) contiguous to the licensed business, or (ii) located on the same property or parcel of land as the licensed business;

(d) The outdoor alcohol service area must have an attendant, wait staff, or server dedicated to the area when patrons are present;

(e) Interior access to the licensed premises from the outdoor alcohol service area is not required. However, unless there is (i)

interior access to the licensed premises from the outdoor alcohol service area, or (ii) an unobstructed direct line of sight from inside the licensed premises to the outdoor alcohol service area, an employee with a mandatory alcohol server training (MAST) permit under chapter 314-17 WAC must be present in the outdoor alcohol service area at all times that patrons are present, in order to monitor alcohol consumption. This requirement is in addition to the requirement in (d) of this subsection that the outdoor alcohol service area must have an attendant, wait staff, or server dedicated to the area when patrons are present;

(f) The same food service offered inside the licensed premises must also be offered in the outdoor alcohol service area;

(g) The outdoor alcohol service area must be enclosed with a permanent or movable barrier a minimum of 42 inches in height. The board may grant limited exceptions to the required 42 inch high barrier for outdoor alcohol service areas if the licensee has permanent boundaries for the outdoor alcohol service area;

(h) Openings into and out of the outdoor alcohol service area cannot exceed 10 feet. If there is more than one opening along one side, the total combined opening may not exceed 10 feet; and

(i) Licensees must comply with local building codes, local health jurisdiction requirements, department of labor and industries requirements, and any other applicable laws and rules.

~~((+3+))~~ **(2) Outdoor alcohol services in public spaces.** For ongoing outdoor alcohol service located in public spaces, a licensee must request approval from the board's licensing division and meet the following requirements:

(a) The licensed business must have a permit from their local jurisdiction allowing the business to use the public space as a service area, such as a sidewalk cafe permit or other similar outdoor area permit authorized by local regulation;

(b) The licensee must have a building that provides indoor dining or production in order to qualify for an outdoor alcohol service area;

(c)(i) Except as provided in (c)(ii) of this subsection, the outdoor alcohol service area must be enclosed with a permanent or movable barrier a minimum of 42 inches in height. Openings into and out of the outdoor alcohol service area cannot exceed 10 feet. If there is more than one opening along one side, the total combined opening may not exceed 10 feet;

(ii) Licensees with outdoor alcohol service areas contiguous to the licensed premises may use a permanent demarcation of the

designated alcohol service area for continued enforcement of the boundaries, instead of a permanent or movable barrier a minimum of 42 inches in height. If a permanent demarcation is used, the permanent demarcation must be at all boundaries of the outdoor alcohol service area, must be at least six inches in diameter, and must be placed no more than 10 feet apart;

(d) The outdoor alcohol service area must have an attendant, wait staff, or server dedicated to the area when patrons are present;

(e) The same food service offered inside the licensed premises must also be offered in the outdoor alcohol service area; and

(ii) If the shared outdoor alcohol service area is located in a privately owned space, the licensees sharing the space must meet all of the requirements in subsection (~~(+2+)~~) (1) of this section and must have legal authority to share use of the outdoor service area including, but not limited to, ownership or leasehold rights;

(c) The licensees must maintain separate storage of products and separate financial records for the shared outdoor alcohol service area. If licensees share any point of sale system, the licensees must keep complete documentation and records for the shared point of sale system showing clear separation as to what sales items and categories belong to each respective licensee;

(d) The licensees must use distinctly marked glassware or serving containers in the shared outdoor alcohol service area to identify the source of any alcohol product being consumed. The distinctive markings may be either permanent or temporary. Any temporary markings must

remain on the glassware or serving containers through the duration of use by the customer;

(e) The licensees must complete an operating plan for the shared outdoor alcohol service area. The operating plan should demonstrate in general how responsibility for the outdoor alcohol service area is shared among the licensees. Licensees are required to submit the operating plan to the board's licensing division at the time of application or alteration and must keep documentation of an up-to-date plan available for inspection on premises; and

(f) Consistent with WAC 314-11-065, a licensee may not permit the removal of alcohol in an open container from the shared outdoor alcohol service area, except to reenter the licensed premises where the alcohol was purchased. Signage prohibiting the removal of alcohol in an open container must be visible to patrons in the shared outdoor alcohol service area.

~~((5))~~ (4) If multiple licensees use a shared outdoor alcohol service area as described in subsection ~~((4))~~ (3) of this section, all participating licensees are jointly responsible for any violation or enforcement issues unless it can be demonstrated that the violation or enforcement issue was due to one or more licensee's specific

conduct or action, in which case the violation or enforcement action applies only to those identified licensees.

CR 102 Memorandum

Regarding Implementation of 2021 Legislation – E2SHB 1480 (COVID-19 Alcohol Allowances).

Date: September 29, 2021
Presented by: Audrey Vasek, Policy and Rules Coordinator

Background

In March of 2020, as the coronavirus (COVID-19) pandemic began to spread rapidly in Washington, the state announced restrictions that impacted the operations of many Washington State Liquor and Cannabis Board (WSLCB) licensees, particularly on-premises licensees. Some licensees were required to close entirely and others had significant limitations on sales and customer service. The WSLCB worked to find temporary ways for businesses to expand their operations using methods that would not put the health of employees or customers at risk. Engrossed Second Substitute House Bill (E2SHB) 1480 (chapter 48, Laws of 2021) took effect on April 14, 2021, providing legislative authorization extending certain temporary privileges that the WSLCB granted to liquor licensees to mitigate the impact of the COVID-19 pandemic.

The WSLCB began to consider rule revisions to implement E2SHB 1480 by filing a pre-proposal statement of inquiry (CR 101) under WSR 21-11-035 on May 12, 2021. The purpose of this rule proposal (CR 102) is to implement E2SHB 1480 by: (1) creating rules for the temporary “to-go” alcohol endorsements; (2) creating and revising rules for the temporary outdoor alcohol service area requirements; and (3) revising food service requirement rules to provide licensees with greater flexibility. The E2SHB 1480 rulemaking has several components:

Temporary Rules Creating Endorsements for “To-Go” Alcohol Sales

E2SHB 1480 creates temporary alcohol to-go endorsements that allow certain licensees to engage in curbside, takeout, or delivery sales of cocktails and wine by the glass, growlers, and other alcohol products. These new endorsements are set to expire July 1, 2023. There are no fees for licensees to obtain these endorsements. See E2SHB 1480, section 2(2)-(7) and (11).¹ The rule proposal creates three new temporary rule sections (intended to expire July 1, 2023) that describe the requirements for licensees to obtain these endorsements.

¹ Section 2 of E2SHB 1480 creating the temporary endorsements for “to-go” alcohol sales is uncoded due to its temporary nature (expiration July 1, 2023). However, section 3 (related to rulemaking authority with respect to food service menu requirements) is codified as RCW 66.08.071.

ATTACHMENT A

Temporary Rules for Outdoor Alcohol Service Areas

E2SHB 1480 requires the WSLCB to adopt or revise current rules to allow for temporary outdoor service of alcohol by certain on-premises licensees, and provides the WSLCB with authority to adopt requirements providing for clear accountability at locations where multiple licensees use a shared space for serving customers. These outdoor alcohol service area rules are set to expire July 1, 2023. See E2SHB 1480, section 2(8) and (11). The rule proposal creates a new temporary rule section (intended to temporarily replace the current outdoor alcohol service area rules until July 1, 2023) describing the requirements for outdoor alcohol service areas, including shared spaces.

Permanent Rules Updating Food Service Menu Requirements

E2SHB 1480 requires the WSLCB to consider revising current rules in order to provide greater flexibility regarding the food service menu requirements that licensees must provide in conjunction with alcohol sales. These food service menu requirement changes are permanent. See RCW 66.08.071 (E2SHB 1480, section 3). The rule proposal amends a series of rule sections in chapter 314-02 WAC related to food service menu requirements, including the definitions of “complete meal” and “minimum food service.”

Stakeholder Engagement

The CR 102 rule proposal was developed through a collaborative rule development process involving both internal and external stakeholders. During the initial CR 101 public comment period from May 12 through July 2, 2021, three public comments were received.² These comments were considered as the conceptual draft rules were developed through a series of collaborative internal project team meetings with WSLCB staff from the Licensing Division, Enforcement and Education Division, and the Public Health and Prevention Liaison.

After the conceptual draft rules were developed, the WSLCB Policy and Rules Unit held two virtual Listen and Learn sessions through Microsoft Teams to gather public feedback and suggestions for revisions. The first Listen and Learn session was held on August 5, 2021, from 1:00 to 3:30 PM, and the second session was held on September 2, 2021, from 1:00 to 3:15 PM. At a peak, there were around 60 people in attendance at the first event and 55 people in attendance at the second event. Messages inviting any interested members of the public to participate in the Listen and Learn sessions were sent to GovDelivery subscriber lists two weeks prior to each event, and reminder emails were sent the day before each event.³

² See Attachments D, Table containing public feedback received during the CR 101 public comment period from May 12 through July 2, 2021, as well as comments received after CR 101 public comment period closed that are not related to the Listen & Learn Sessions.

³ See Attachments A & B, Tables containing public feedback received during the Listen and Learn Sessions & GovDelivery Messaging.

ATTACHMENT A

The feedback received during Listen and Learn Sessions is provided in Attachments A and B to this memo. The WSLCB incorporated feedback received at the Listen and Learn sessions into the proposed rule language by making a number of changes including, but not limited to, the following:

- *For the temporary manufacturer sealed alcohol products “to-go” endorsement:*
 - The requirement that delivery must be made by employees of the licensed business who are at least 21 years of age is removed. The rule proposal allows delivery by third-party service providers under the existing consumer orders, internet sales, and delivery rules with approval by the WSLCB Licensing Division of an added activity application requesting internet sales privileges.
 - An exception is provided to the requirement that the exterior of to-go bags/packages containing manufacturer-sealed alcohol products be marked with the words “CONTAINS ALCOHOL, FOR PERSONS 21+.” Under the rule proposal, brewery, winery, and distillery licensees are not required to mark or label the exterior of the to-go bag/packaging if the to-go bag/packaging containing the manufacturer-sealed alcohol product is provided to customers through takeout service.
 - Both of the above changes are intended to address the concerns expressed during the first Listen and Learn session about inconsistencies between existing licensee privileges and the new privileges allowed by HB 1480 for certain licensees.
- *For the temporary growlers “to-go” endorsement:*
 - The rule proposal adds language stating that brewery and microbrewery products that meet federal alcohol and tobacco tax and trade bureau labelling requirements are not considered prefilled growlers and are not subject to the overnight storage prohibition on prefilled growlers. This change is intended to address the concern expressed during the first Listen and Learn session about potential confusion between prefilled growlers (as the term is used in E2SHB 1480) and manufacturer sealed products that meet TTB labelling requirements but look similar to growlers.
- *For the temporary cocktails/wine by the glass “to-go” endorsement:*
 - The rule proposal incorporates a reference to the existing consumer orders, internet sales, and delivery rules in response to the suggestion provided during the first Listen and Learn session to add language stating that all transactions need to take place at the licensed premises and that no money may be exchanged between the delivery person and customer upon delivery. The existing consumer orders, internet sales, and delivery rules already contain language stating that “Only a licensee or a licensee's direct employees may accept and process orders and payments.” and “All orders and payments shall be fully processed before liquor transfers ownership or, in the case of delivery, leaves a licensed premises.” (See e.g. WAC 314-03-020 through 314-03-040).
- *For all three temporary “to-go” endorsements:*

ATTACHMENT A

- The rule proposal states that delivery sales records must meet the requirements in the consumer orders, internet sales, and delivery rules as well as general record retention requirements in WAC 314-11-035. This change is intended to clarify requirements in response to questions about delivery record requirements received at the first Listen and Learn Session.
- *For the temporary outdoor alcohol service area rules:*
 - The rule proposal clarifies that producers (e.g. breweries, wineries, and distilleries) can qualify for outdoor alcohol service areas without needing indoor dining capacity (i.e. “The licensee must have a building that provides indoor dining or production in order to qualify for an outdoor alcohol service area”). This change is intended to address the concerns expressed during the second Listen and Learn session that the conceptual draft rules would have prevented many producers from having outdoor alcohol service areas.
- *For the food service menu requirement rules:*
 - The rule proposal revises the definitions of “complete meal” and “minimum food service” to clarify that the restriction on menu items that consist solely of precooked frozen food applies to *meals* rather than *food* that is precooked and frozen. The revision is intended to clarify that ingredients or components of meals might be precooked and frozen, and then later used by the food service establishment to prepare a menu item that qualifies as a complete meal/ minimum food service item, in response to feedback and questions received in connection with the second Listen & Learn session.

Estimated Costs of Compliance

For the purpose of the minor cost analysis required by the Regulatory Fairness Act in chapter 19.85 RCW, the CR 102 includes estimated business costs of compliance with the proposed rules. In order to estimate these costs of compliance, WSLCB Policy and Rules Coordinators interviewed twelve volunteer licensees for 45 minutes each from September 15 through September 21, 2021. In order to recruit volunteer interviewees, a GovDelivery message was sent to all liquor licensee subscribers on September 3, 2021, asking for interview volunteers impacted by the alcohol to-go endorsements to provide feedback to help estimate the costs of compliance associated with the draft rules to implement HB 1480.⁴ The estimated costs of compliance and the relevant minor cost thresholds are described in detail in the CR 102 form.

Description of Rule Changes & Rule Necessity

The proposed rules are needed to align existing rules with and implement the law as established by E2SHB 1480, as described in the table below:
