2021 CANNABIS REPORT

MAY 2022

UNIVERSITY OF
WATERLOO

Forward

The International Cannabis Policy Study is an international research collaboration designed to examine cannabis policy and public health impact. The project started in includes annual population-based surveys in Canada and the United States (since 2018), as well as Australia and New Zealand (since 2021).

The current report summarizes findings among respondents from Washington for the 2021 survey, with comparison to previous years. Additional details are available upon request.

Visit the study website for more information:
www.cannabisproject.ca.

FUNDING

FUNDING FOR THIS REPORT WAS PROVIDED BY THE WASHINGTON STATE LIQUOR AND CANNABIS BOARD. FUNDING FOR THE BROAD ICPS PROEJCT WAS PROVIDED BY A CANADIAN INSTITUTES OF HEALTH (CIHR) PROJECT GRANT AND A CIHR PARTNERSHIPS FOR CANNABIS POLICY EVALUATION TEAM GRANT.

ETHICS CLEARANCE

THE PROJECT HAS BEEN REVIEWED BY AND RECEIVED ETHICS CLEARANCE THROUGH A UNIVERSITY OF WATERLOO RESEARCH ETHICS COMMITTEE (ORE#31330).

Methods

OVERVIEW

The International Cannabis Policy Study is a repeat cross-sectional survey conducted annually in the United States and Canada (since 2018), as well as Australia and New Zealand (since 2021) to examine trends in cannabis. This report summarizes key indicators from the 2021 ICPS survey in Washington from September 14 to November 8, 2021.

SAMPLE

Respondents were aged 16–65 years were recruited through the Nielsen Consumer Insights Global Panel. The analytic sample for 2021 comprised 52,938 respondents in Canada (n= 16,952), the United States (n= 30,081), Australia (2,925) and New Zealand (2,980). The results in the current report focus on the subsample of 7,291 respondents from Washington who participated in the 2018 (n= 1,157), 2019 (n= 2,359), 2020 (n= 1,976), and 2021 (n= 1,799) surveys.

SURVEY

The survey covers the following content areas:

- prevalence and patterns of cannabis use;
- cannabis purchasing and price;
- cannabis consumption and modes of use;
- commercial retail environment;
- risk behaviours;
- cannabis knowledge, perceptions of risk and social norms;
- exposure to health warnings and

- public educational campaigns;
- exposure to cannabis marketing and branding;
- substance use and other risk behaviours; and
- socio-demographics and socio-economic status.

DATA ANALYSIS

Post-stratification survey weights were created using age-by-sex-by-state, ethnicity-by-census division, education-by-state, and age-by-smoking status groups. All estimates in the current report are weighted and rescaled to the original sample size within each state.

Comparisons are provided between Washington and other states. In the current report, the term ‘legal’ refers to states that had legalized non-medical cannabis for adult use at the time of data collection in each year. ‘Medical’ refers to states that had legalized medical but not non-medical adult use cannabis at the time of data collection. ‘Illegal’ refers to all other states.

TECHNICAL REPORT

The survey and technical report are available at:

www.cannabisproject.ca/methods.

The technical report includes detailed information on methodology and survey weighting.

Cannabis use to manage or improve mental health

'Ever' cannabis consumers reported using cannabis to improve or manage anxiety, depression and PTSD.

Have you ever used marijuana to improve or manage symptoms for any of the following?

% 'YES' EVER CANNABIS CONSUMERS, 2021 N=1,228

Cannabis use to manage or improve physical health

'Ever' cannabis consumers reported using cannabis to improve or manage a range of symptoms, including pain, sleeping problems and headaches/migraines.

Have you ever used marijuana to improve or manage symptoms for any of the following?

% 'YES' AMONG 'EVER' CANNABIS CONSUMERS, 2021, N=1,228

Types of cannabis products

Cannabis consumers 2018–2021

Dried flower was the most commonly used product among past 12-month consumers in all years; the prevalence of dried flower use increased between 2018–2020, and then decreased in 2021. Most other products increased.

Types of cannabis products Washington 2021

Use of cannabis products among past 12-month consumers in Washington was similar to other state categories; however, use of certain products including drops or capsules, topicals, and drinks were notably higher in Washington compared to the other state category averages.

Dried herb

Edibles

Drops or capsules

Vape oils

Types of cannabis products

Washington 2021

Hash or kief

Topicals

Solid concentrates

Drinks

Tinctures

Use of 'non-THC' CBD products

In 2021, over 2 in 5 respondents from Washington reported using “CBD-only products” (with no THC) in the past 12 months. The most common CBD product types were topicals, oil/liquid drops, and edibles.

Use of CBD-only products

IN PAST 12 MONTHS, N=10,385

Type of CBD-only products used

AMONG THOSE WHO REPORTED CBD-ONLY PRODUCT USE, N=527

AMONG ALL RESPONDENTS. PERCENT WHO REPORTED USING ANY CBD-ONLY PRODUCTS WITH NO THC IN THE PAST 12 MONTHS.

'Delta-8' THC products – Awareness

In 2021, 'Delta-8 THC' products were widely marketed in the US, particularly in jurisdictions in which conventional 'Delta 9 THC' products were illegal for adult use. Approximately 10% of Washington respondents reported hearing about Delta-8 products. However, awareness levels for 'Delta-8' were similar to levels for 'Delta-4' products. 'Delta 4' THC was included in the survey as a 'bogus' option given that no Delta-4 products are currently marketed or sold in the US. This suggests a high level of misreporting among those who indicate an awareness of Delta-8 products.

Some new types of products contain DELTA-8 THC.

Have you heard of products that contain the following?

% 'YES', ALL RESPONDENTS, 2021, n=1,799

'Delta-8' THC products—Use

In 2021, 23% of respondents who had heard of 'Delta-8' THC reported using a Delta-8 THC product in the past 30 days, corresponding to approximately 2% of all respondents in Washington. These estimates should be interpreted with caution given the high likelihood of over-reporting due to confusion over 'Delta-8' products.

Have you ever used a DELTA-8 THC product?

ALL RESPONDENTS, 2021, n=159

Yes – In past 30 days

Yes – more than 30 days ago

'Delta 8' THC products – Types

Among those that reported using 'Delta-8' THC products, vapes, drinks, and edibles, were the most commonly used, although these estimates are subject to wide confidence intervals due to low numbers of respondents reporting use.

What type of DELTA-8 THC product have you used?

AMONG WASHINGTON RESPONDENTS THAT REPORTED AWARENESS AND USE OF DELTA-8 PRODUCTS, 2021, n=55

Price of dried flower

Consumers reported paying an average of \$7.38 per gram of dried flower in 2021, including from legal and illegal sources. The price paid for dried flower from legal retail sources decreased between 2020 to 2021, with increases in price from illegal sources. In 2019, the average price paid from legal sources was \$6.06 per gram, \$0.95 lower than from illegal sources, compared to \$6.51 in 2021, \$7.07 lower than illegal sources.

Cannabis sources

Washington 2021

Stores were the most common source of cannabis among past 12-month consumers across all years. In 2021, over three quarters of consumers got their cannabis from 'stores'.

Cannabis sources in the past 12-months

AMONG PAST 12-MONTH CONSUMERS

-  Made or grew my own
-  Family member or friend
-  Dealer
-  Store, co-operative or dispensary

Cannabis sources

Compared to other state categories in 2021, Washington consumers were more likely to report sourcing cannabis from a store and less likely to report sourcing cannabis from family/friends or a dealer.

Store, co-op, or dispensary

Family member or friend

Dealer

Made or grew my own

Purchasing cannabis from 'legal' sources

Washington consumers reported purchasing among the highest percentage of cannabis from legal retail sources in 2021 compared to other state categories.

Mean percentage of all cannabis products purchased in last 12-months from a legal retail source

AMONG PAST 12 MONTHS CONSUMERS, RESPONDENTS AGE: 21+

Perceptions of legal cannabis Washington 2021

Past 12-month consumers were more likely than all respondents to perceive cannabis from 'legal' sources as more expensive as well as lower quality. Fewer respondents perceived differences in the safety of cannabis from legal versus illegal sources.

- Legal marijuana is 'lower quality'
- Legal marijuana is 'more expensive'
- Legal marijuana is 'less convenient to buy'
- Legal marijuana is 'less safe to use'
- Legal marijuana is 'less safe to buy'

ALL RESPONDENTS

PAST 12-MONTH CONSUMERS

Perceptions of legal cannabis - 2021

Consumers in Washington were less likely to perceive legal cannabis as more expensive or less convenient to purchase compared to the legal state average.

AMONG PAST 12-MONTH CONSUMERS

Legal marijuana is 'more expensive'

Legal marijuana 'less convenient to buy'

Legal marijuana is 'lower quality'

Legal marijuana is 'less safe to use'

Legal marijuana is 'less safe to buy'

Reasons for purchasing from retail 'illegal' sources

Washington 2021

Consumers who purchased cannabis from an illegal retail source reported a range of reasons for doing so. Higher price and lower convenience were the most common reasons for purchasing cannabis from illegal sources in 2021.

Perceptions of cannabis access

The ease of getting cannabis decreased modestly from 2018 through to 2021 for Washington respondents; however, ease of purchasing cannabis from a legal store and legal online source increased from 2020 to 2021. Washington consumers reported higher ease of getting cannabis and purchasing cannabis from an online source than consumers in other state categories.
